Uninspired Session Leads to Decreased Vote Scores

By Kevin Brinegar, President and CEO

Before the start of each legislative session, the Indiana Chamber announces its priority policies and areas of focus. These are matters that would have wide impact on businesses and citizens throughout the state. All are tied to goals in the Chamber's *Indiana Vision 2025* long-term economic development plan for the state (www.indianachamber.com/2025), which has 37 goals under four drivers: Outstanding Talent, Attractive Business Climate; Superior Infrastructure, and Dynamic and Creative Culture.

On page 4 are the bills that contain those priority goals, their outcome and why they are good policies for the state. Unfortunately, the 2020 session won't be remembered in Indiana for landmark legislative accomplishments. And it was already trending that way before the coronavirus pandemic hit full force and economic fortunes left the nation in flux. This General Assembly simply passed on too many economic opportunities by outright defeating vital legislation or letting the measures die.

For the 35 bills that are included in this report, you can see if your legislators supported a pro-jobs, pro-economy agenda by viewing their scores on page 3. By and large, these scores are lower this year, reflecting that meaningful legislation was in far too short supply.

The Indiana Chamber is fully prepared to play a vital role in the business community's ultimate recovery in the coming months and year. Legislative actions will be critical to how quickly Indiana can rebound from the COVID-19 pandemic and return to the prosperity it enjoyed as a Midwest leader and national competitor.

The Chamber has released a public policy agenda to help achieve both short-term relief and long-term economic growth for Hoosier businesses and their workforce. We encourage you to review that proposal at www.indianachamber.com/recoveryagenda.

A handwritten signature in black ink that reads "Kevin Brinegar".

Developing the Business Agenda

The Indiana Chamber provides more information on important pro-jobs, pro-economy issues to legislators and businesspersons than any other organization in the state. In preparation for each legislative session, the Indiana Chamber's numerous policy committees study the various public policy issues impacting businesses and their employees and formulate positions on these issues.

Following review and adoption by the Indiana Chamber's board of directors, a publication titled *Legislative Business Issues* is sent to all legislators, Chamber members, local chambers of commerce and coalition members. This publication outlines the Indiana Chamber's position on important public policy issues and provides invaluable analysis.

During the legislative sessions, lawmakers are kept advised on key business issues through various editions of the *Legislative Agenda* report and other communications that detail the Indiana Chamber's position on every bill that has a pro-jobs, pro-economy impact. The *2020 Legislative Vote Analysis* measures the voting performance of individual legislators on bills that best reflect the Chamber's policy positions.

2020 Priority Legislation

ECONOMIC DEVELOPMENT / INNOVATION / TECHNOLOGY

Our Priority: Support reducing or eliminating unnecessary professional licensing requirements that can hinder talent attraction, especially from those out of state or the country.

Legislation: House Bill 1008 – Occupational license endorsement; failed.

Broadly recognizing occupational licenses issued in other jurisdictions would have helped Indiana attract much needed talent, reduced barriers to entering the workforce and saved administrative costs. Indiana should establish itself as the least restrictive state in the country for entering the professional workforce and opening a new business while at the same time making sure consumers have relevant, accurate and up-to-date information about the professional services they consume and those who perform them.

Legislation: Senate Bill 427 – Provisional occupational license; signed by the Governor.

Granting spouses of military members a provisional occupational license in their profession upon establishing residency in Indiana is a welcome step to aid in the state's talent shortage.

Our Priority: Support empowering local communities in regions across Indiana to come together to create regional management authorities to boost quality of place funding throughout the state.

Legislation: Senate Bill 350 – Central Indiana regional development authority; signed by the Governor.

Establishes a central Indiana development authority to be managed by a codified Indianapolis Metropolitan Planning Organization. The Chamber believes this is

a model that other state regions can use to gain access to capital and establish a pipeline of investable, quality-of-place projects and programs.

EDUCATION / WORKFORCE DEVELOPMENT

Our Priority: Support strengthening Indiana's high school accountability system.

Legislation: House Bill 1002 – Teacher evaluations/accountability removal; signed by the Governor. Chamber opposed.

This change removes a state expectation that local schools use student learning data as a factor in gauging the effectiveness of their classroom teachers. Eliminating such objective data-driven measures altogether in favor of subjective measures like classroom observations by school principals sends the message that "results don't matter" and sets a troubling precedent for future progress in Indiana education.

Our Priority: Support further evaluation of the state's various education and workforce programs.

Legislation: House Bill 1492 – Governor's Workforce Cabinet; signed by the Governor.

Will better align Indiana's education and workforce systems by giving more key stakeholders a voice on these critical workforce issues.

Our Priority: Support requiring Indiana high school seniors to complete the Free Application for Federal Student Aid (FAFSA) – with an opt-out option – to ensure that more Hoosier students have the opportunity to earn industry-recognized credentials and degrees with reduced or no debt.

Legislation: Senate Bill 223 – FAFSA; failed.

Vote Selection Criteria and Scoring

The Indiana Chamber has well-established criteria for selecting votes to be included in the *Legislative Vote Analysis* (LVA). Bills included meet the following four criteria:

1. Votes on all subject matter used in LVA are based on and best reflect the Chamber's legislative policy as determined by the Chamber's board of directors and expressed in *Legislative Business Issues*, *Legislative Agenda* or other Chamber communications to legislators.
2. Each member of the Indiana General Assembly is informed of all bills the Chamber is following, including the Chamber's position on each, the reasons for the position and the name and contact information of the specific Chamber issue expert to contact for more information.
3. Each member of the Indiana General Assembly is informed of the Chamber's position on the issue and bill prior to the vote. This notification was provided in editions of the *Legislative Agenda* or other communications with legislators.
4. Only floor votes for which there is a public record are used.

Base scores for each legislator are calculated as a percentage of votes cast in agreement with the Chamber's position on the bills included in LVA. A modest adjustment factor (positive or negative) has been added to the LVA scoring model to factor in very important legislative activities outside of floor votes on bills the Chamber has taken a position on, including whether a legislator sponsored/authored these bills and whether committee chairs held hearings or killed these bills. This adjustment factor is applied as a net positive or negative number of additional scored votes and is capped at +/- 10 votes.

This wasn't a mandate (there were clear opt-out options), but rather a reasonable safeguard to ensure students don't miss out on grants and scholarships due to a lack of awareness. As a state, we should be all for helping our young people prosper and supporting pathways to upward mobility that decrease dependence on state assistance programs. The Legislature's refusal to listen to facts and act in the best interest of students on this bill was staggering.

HEALTH CARE

Our Priority: Support efforts to make health care costs more transparent and lessen the incidence of "surprise billing".
Legislation: House Bill 1004 – Health matters; signed by the Governor.

Focuses on price transparency, including providing good faith estimates to patients for non-emergency services, an all-payer claims database and efforts to remove employees/patients from surprise billing disputes.

Legislation: Senate Bill 5 – Health provider contracts; signed by the Governor.

Prohibits health provider contracts from including provisions that prohibit providers from disclosing health care service claims data to employers providing the coverage. We believe employers having access to claims data is important to decision-making processes. Another benefit: This will promote much desired price and quality transparency for purchasers of health care.

Our Priority: Support meaningful approach to decreasing the state's vaping and smoking rate.

Legislation: Senate Bill 1 – Tobacco/vaping age increase; signed by the Governor.

The Chamber has been a longtime supporter of this policy, which changes the legal smoking age from 18 to 21 and strengthens the federal law, including penalties for violation by retailers.

LABOR RELATIONS

Our Priority: Support unemployment insurance (UI) tax liability certainty for employers while ensuring fund solvency.

Legislation: House Bill 1111 – Unemployment insurance schedule; signed by the Governor.

This provides important certainty for employers of what their UI rate schedule and contribution levels are going to be through 2025.

LOCAL GOVERNMENT

Our Priority: Support meaningful township government reform.

Legislation: House Bill 1027 – Township assessors; failed.

This bill would have increased the effectiveness of property tax assessment in the remaining 13 townships (in nine counties), where separate township assessors continue to be elected. The Chamber continues to be dismayed by the attitude toward bringing about greater consistency and uniformity of assessments within these remaining counties. Historical evidence supports the contention that eliminating these township assessors will result in improved efficiency and taxpayer savings.

TAXATION

Our Priority: Support maintaining and enhancing our attractive tax climate.

Legislation: Senate Bill 385 – Assessment of business personal property tax; failed.

This would have saved thousands of small businesses from having to file a personal property tax return. Those who would benefit from this bill were businesses that have older equipment that is still reportable only because it was originally purchased at a price in excess of the \$40,000 exemption threshold. Because these taxpayers are paying on the depreciated value, their tax liability is small and collectively represents only a minor statewide reduction in revenues.

The Indiana Chamber's Bill Waltz (left) and Mike Ripley discuss where key legislation is headed in the last days of the session.

INDIANA BUSINESS FOR
RESPONSIVE GOVERNMENT

LEADING THROUGH POLITICAL ACTION

Investing in Indiana Business for Responsive Government is the single most effective thing you can do to help elect business-endorsed candidates.

Indiana Business for Responsive Government (IBRG) is the non-partisan political action program of the Indiana Chamber of Commerce. IBRG is the business community's most sophisticated and comprehensive program for electing endorsed candidates to the Indiana General Assembly.

IBRG's mission is to drive "real change" by holding legislators accountable for their voting records. That means getting directly involved in elections to help elect pro-jobs, free-enterprise candidates and to challenge incumbents who don't support a pro-growth reform agenda for our state.

100% of investments in IBRG fund campaigns, not administrative or fundraising efforts. A professional team of campaign experts work "in the trenches" with candidates to win.

Leading Indiana businesses and individuals support IBRG because they know it works and know what's at stake in the elections.

A RECORD OF SUCCESS

Since 1990, over 85% of IBRG-backed candidates have won their state legislative elections. Forty-two (42) incumbents who didn't support the Chamber agenda have been defeated with IBRG help.

Paid for by the Indiana Chamber of Commerce. Contributions or gifts to Indiana Business for Responsive Government are not deductible for federal income tax purposes.

4 Drivers 37 Goals 1 Mission

The Indiana Chamber and its many statewide partners are working today to ensure that by the year 2025 "Indiana will be a global leader in innovation and economic opportunity where enterprises and citizens prosper."
