

MEET OUR ADVOCACY AND PUBLIC AFFAIRS TEAM

The Indiana Chamber champions free enterprise and works to create an economic environment that enables Hoosier businesses and the workforce to prosper. We do that by fiercely defending the business community against costly and job-killing regulations and legislation, while driving action on our latest visioning plan for the state, *Indiana Prosperity 2035*.

We represent the interests of companies of all types and sizes throughout Indiana – including the most small businesses of any organization.

Our track record of success for our member companies is due to the approach we take on public policy that taps into the talent and knowledge across the Chamber.

GOVERNMENT AFFAIRS

Our legislative action group advocates for pro-jobs, pro-economy public policies at the Statehouse and in Congress. We look forward to working with lawmakers, the Governor and other stakeholders to advance these related bills.

POLITICAL AFFAIRS

As we advocate for the business community and to achieve the goals found in our sweeping Indiana Prosperity 2035 plan for the state, it's crucial that we support the election of thoughtful, pro-business candidates to the state Legislature. Indiana Business for Responsive Government (IBRG) is the non-partisan political action program of the Indiana Chamber.
